What is SCREENAGERS? This is information from their website.

"Are you watching kids scroll through life, with their rapid-fire thumbs and a six-second attention span? Physician and filmmaker Delaney Ruston saw that happening with her own kids and began a quest to uncover how it might impact their development. As with her other two award-winning documentaries on mental health, Ruston takes a deeply personal approach as she probes into the vulnerable corners of family life, including her own, to explore struggles over social media, video games, academics and internet addiction. Through poignant, and unexpectedly funny stories, along with surprising insights from authors, psychologists, and brain scientists, SCREENAGERS reveals how tech time impacts kids' development and offers solutions on how adults can empower their kids to best navigate the digital world to find balance.

SCREENAGERS addresses the most pervasive parenting issue of our time head on—depicting teen struggles over social media, video games and internet addiction. The film empowers kids to best navigate the digital world, and provides practical resources to help them do it."

Please join us Monday evening. Together we will make a difference for our children. Thank you for your continued support of Renaissance Public School Academy.

Yours Truly,  
Lisa Bergman, Principal
